GREEN VALLEY AWARDED FOR ENGINEERING EXCELLENCE
Pierson Reach Pedestrian Bike Path Honored

SANTA ROSA, CA - Green Valley received an Honor Award in the Consulting Engineers and Land Surveyors of California (CELSOC) 2005 Engineering Excellence Award competition for their design and engineering excellence on the Pierson Reach Pedestrian Bike Path in Santa Rosa, California. The award competition ceremony was held on January 24, 2005 in Sacramento.

Green Valley was amongst top engineering agencies from the State of California and beyond that competed for the Small Firm Excellence Award. The Pierson Reach Pedestrian Bike Path was recognized for its technical value, innovative engineering, social and economic considerations, complexity, and meeting the needs of the client. As a part of design, extensive permitting was required from six separate agencies.

Liz Ellis of Green Valley says, "The Pierson Reach Project exemplifies Green Valley's dedication to partnering with municipal agencies to provide community excellence. We are delighted to have received the CELSOC Honor Award."

Green Valley offers a full-range of comprehensive award-winning civil engineering & land surveying services for public and private projects. Located in Santa Rosa, California, Green Valley was founded in 1997 by Liz Ellis, P.E.
